

Name _____

Date ____ / ____ / ____

CLOUDS AND THEIR WEATHER

Specific kinds of weather are associated with different types of clouds. The mostly blank chart below shows four different kinds of clouds. For each of these, write the name of the type of cloud, a description of the cloud shape, and the type of weather associated with that kind of cloud. Use the terms and descriptions from the following table:

Names	Descriptions	Associated Weather types
Cirrus	Dark, tall, and billowing	Fair weather
Cumulonimbus	Piled up "puffy" clouds	Fair, sometimes showers
Cumulus	Smooth layers or sheets	Steady drizzle or rain
Stratus	Wispy thin clouds	Thunderstorms

Cloud Type	Name	Description	Associated Weather
